OUT-OF-SCHOOL MATTERS!
September 18-19, 2024

EXHIBITOR GUIDE

Out-of-School Matters!

W

elcome to the Idaho Out-of-School Network's 11th annual Power Up Summit. This year we will be reminding leaders and program providers why out-of-school programming matters. Spend time with ION building knowledge, practice, awareness and resources to impact the overall health and quality of ourselves and the programs serving youth.

The Summit will host upwards of 200 people in Boise on September 18th and 19th and is Idaho's only conference dedicated solely to professionals working in out-of-school time (before and after school and in summer learning programs). This conference celebrates heroes in the community, connects people serving youth, empowers and energizes us to be creative and work together to meet the needs of families and youth statewide.

Thank you for participating!

Registration

The Idaho Out-of-School Network Power Up Summit is the premier convening of programs, leaders, and educators celebrating out-of-school learning from across the state of Idaho. We invite exhibitors to join us in creating a summit where people come to connect, create, and invest in more opportunities for young people.

Set Up & Tear Down

Set-up

Tuesday, September 17th from 4:00 to 6:00 PM

Entrance to the loading area of the garage is accessible from Myrtle Street. Exhibitors will have access to the freight elevator to the Exhibitor Hall on level 6. Exhibitors are encouraged to set-up the day before the conference. If this is not possible, please arrive by 6:30 AM on September 18th to ensure the Exhibitor Hall and Pioneer Lobby are ready for registration at 8:30 AM.

Tear down

Thursday, September 19th at 4:00 PM

The freight elevator and loading area will be available at 4:00 PM at the conclusion of the conference. Please have all displays removed by 5:00 PM.

JUMP will not receive shipped exhibitor materials. Please make arrangements with Home2 Suites if you need to ship and store materials prior to the conference. If you are staying elsewhere, ION can accommodate most shipments.
